

## Parallel, perpendicular & intersecting lines

### Grade 3 Geometry Worksheet

Parallel lines do not intersect or touch each other at any point.  
 Perpendicular lines form right angles ( $90^\circ$ ) when they intersect.  
 Intersecting lines cross at one point.

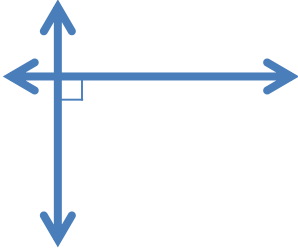

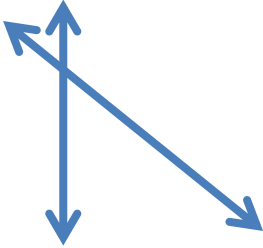

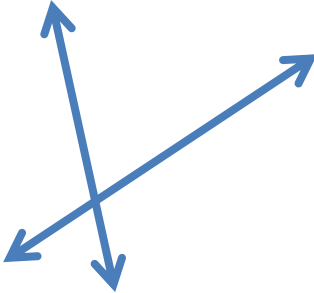

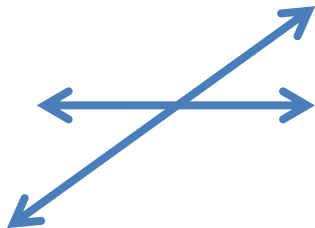

Write "**parallel**", "**perpendicular**" or "**intersecting**" below each pair of lines.

 _____	 _____	 _____
 _____	 _____	 _____

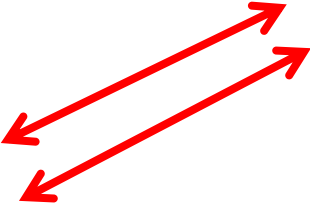

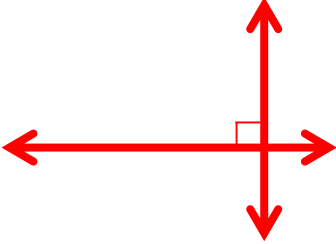

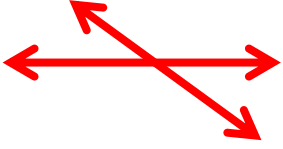

Draw the following:

Parallel lines	Perpendicular lines	Intersecting lines
----------------	---------------------	--------------------

## Answers

 <p><u>parallel</u></p>	 <p><u>perpendicular</u></p>	 <p><u>intersecting</u></p>
 <p><u>intersecting</u></p>	 <p><u>parallel</u></p>	 <p><u>intersecting</u></p>

Draw the following:

<p>Parallel lines</p> 	<p>Perpendicular lines</p> 	<p>Intersecting lines</p> 
---	--	---
